VI. 閱讀以下兩篇短文並根據文意選擇最適當之選項.(20%)

A. Twenty years ago when the personal computer hit the business world, experts predicted the advent of the paperless office. But time has proved them wrong. Offices have more paper than ever. People can easily print out a personal copy of a document for anyone who needs to see it. Programs such as spelling and grammar checkers, as well as improved computer graphics, have led people to expect perfection in their documents, and to keep printing copies until they get it. The simple truth is that most people simply prefer paper. Scientific studies have shown that paper copies are easier for people to read and to edit than is text on a screen. And many people are still nervous about documents being accidentally deleted from a computer—if not through their own fault, through a computer system failure or a power outage. In short, although office paper may be significantly reduced, the paperless office is unlikely to become a reality.

The subway system provides fast, inexpensive transportation to all areas of the city, from 6:00 am to 12 midnight. Bus service operates 24 hours a day, for those who prefer to travel above ground and sneak in some extra sightseeing en route. Those of you who want to make sure that you see all the tourist attractions may be especially interested in our Visitor's Tour buses, which make stops at all points of interest throughout the city. For your convenience, special visitor’s passes for all forms of public transportation are sold at hotels throughout the city, along with maps and schedules for transportation routes. Subway tickets may also be purchased at subway stops.
